Bora Uyar

Bioinformatics Scientist at Max Delbrück Center
Berlin, Berlin, Germany

Summary

I am a bioinformatics scientist at Max Delbrueck Center for Molecular Medicine in Berlin. I am interested in applying bioinformatics solutions to scientific questions to make a contribution to the understanding of the molecular biology of human diseases.

Experience

Max Delbrück Center

Bioinformatics Scientist

August 2015 - Present (7 years 3 months)

EMBL

4 years 7 months

Postdoctoral Fellow

November 2014 - July 2015 (9 months)

PHD

January 2011 - November 2014 (3 years 11 months)

I carried out my Ph.D. projects in the group of Toby Gibson in the Structural and Computational Biology Unit. In our group, we are mainly interested in the understanding of Short Linear Motif biology.

Simon Fraser University

M.Sc. Student

2008 - 2010 (2 years)

I was awarded a scholarship by the CIHR/MSFHR Strategic Training Program in Bioinformatics for my M.Sc. studies at Simon Fraser University and BC Cancer Research Center in Vancouver/Canada.

I did my M.Sc. thesis work with Dr. Jack Chen in the Department of Molecular Biology and Biochemistry at Simon Fraser University.

CIHR/MSFHR Strategic Training Program in Bioinformatics

M.Sc. Student

2008 - 2010 (2 years)

I was awarded a scholarship by the CIHR/MSFHR Strategic Training Program in Bioinformatics for my M.Sc. studies at Simon Fraser University and BC Cancer Research Center in Vancouver/Canada.

As part of this bioinformatics training program, in the first year of my studies, I was involved in three different rotation projects:

- Joint project supervised by Dr. Inanc Birol (at BC Cancer Research Center) and Dr. Cenk Sahinalp (in the School of Computing Science at Simon Fraser University)
- The lab of Dr. Marco Marra (at Canada's Michael Smith Genome Sciences Centre, BC Cancer Agency)
- The lab of Dr. Jack Chen (in the Molecular Biology and Biochemistry Department at Simon Fraser University)
